## DAY 1: 5 September 2019

Programme is subject to change without notice and is accurate at the time of printing.

0900 - 0915

### Conference Opening Remarks

Mr K. Shanmugam  
Minister for Law and Minister for Home Affairs

0915 - 1015

### Opening Keynote

Sir Tim Berners-Lee  
Inventor of the World Wide Web & TIME's 100 Most Important People of the 20th Century

1015 - 1045

Teabreak (*for Conference delegates only*)

1045 - 1200

### Panel Discussion 1: Data and Commerce

*Moderator:*

Mr Yeong Zee Kin, Deputy Commissioner, Personal Data Protection Commission

*Panel:*

Mr Antony Cook, Regional Vice President and Chief Legal Counsel, Microsoft Asia

Mr Luis Gonzalez, APAC Managing Director, Element AI

Mr Ken Chia, Principal, Baker & McKenzie Wong & Leow

Mr Ahmad Fikri Assegaf, Co-founder and Senior Partner, Assegaf Hamzah & Partners

Mr Danny Gilligan, Co-founder & Acting CEO, Data Republic

This panel will discuss the legal and regulatory issues that can stand in the way of making use of data for innovation, beginning with the distinction between non-personal and personal data. What are the implications of recent developments like the EU regulation on the free flow of non-personal data? What are the challenges of the secondary uses of personal data and how can they be addressed? What are the anticipated developments in e-privacy regulations and how they relate to the need for transparency and disclosure, and consumer control? The discussion will also cover anticipated developments in the areas of data portability and promoting trusted data sharing frameworks in the context of enabling competition in services.

1215 - 1330

### Panel Discussion 2: Data and the Legal Ecosystem

*Moderator:*

Mr Lam Chee Kin, Managing Director and Head, Group Legal, Compliance & Secretariat, DBS

## DAY 1: 5 September 2019

Programme is subject to change without notice and is accurate at the time of printing.

1215 - 1330

*Panel:*

Mr Paul Yuen, General Counsel, MAS  
Mr Brandon Daniels, President of Global Technology Markets, Exiger  
Mr James Jarvis, Head of Product Design & Delivery, Thomson Reuters  
Ms Priya Bains, Head of Product, Luminance  
Ms Sophie Mathur, Partner, Linklaters

Legal services and the justice system rely heavily on vast amounts of sensitive data. Legal technologies harnessing big data analytics and machine learning are seeking to change the nature of legal work. What are some of these technologies and what are the benefits and risks? Will these technologies impact the composition of the legal ecosystem? How are various jurisdictions enabling the digital transformation of their legal ecosystem to harness such technologies - in terms of platforms, techniques, and skillsets?

1330 - 1430

Lunch (*for Conference delegates only*)

1430 - 1600

### **[Track 1] Deep Dive Seminar: AI Governance**

*Moderator:*

Prof Simon Chesterman, Dean, Faculty of Law, NUS

*Panel:*

Ms Arianne Jimenez, Privacy and Public Policy Manager, Facebook  
Mr Abhishek Chatterjee, Founder and CEO, Tookitaki  
Mr Marcus Bartley Johns, Regional Director, Government Affairs and Public Policy, Microsoft Asia  
Mr Jeffery Lee, Regional Head of Legal & Compliance, Data, Intellectual Property, Technology & Operations, Support Units, DBS  
Ms Evelyn Goh, Director, Policy, Tech & Trustmark, PDPC

Should the regulation of AI take the form of legislation or softer options like voluntary frameworks and standards? What are the issues around the regulation of decisions that are made autonomously or that are augmented by AI? What does the internal corporate governance of how autonomous decisions are made look like and what is the corporate responsibility and liability for such decisions? This session will also examine how processes are designed to ensure that decisions are made appropriately, data governance and traceability of training and input data and how they affect explainability, and how transparency (whether directly or through the supply chain) can be a boon to increasing consumer confidence.

1430 - 1600

**[Track 2] A Review of the State of Legal Innovation in the Asia Pacific**

*Moderator:*

Mr Paul Neo, Executive Director, SAL Ventures

*Panel:*

Mr Jerrold Soh, Lecturer, SMU School of Law (live from Cambridge, MA)

Mr Anton Pronin, LegalTech Director, Skolkovo Foundation (live from Moscow)

Mr Karthik Mahalingam

Mr Brian Tang, Founding Executive Director, Hong Kong University LITE Programme (live from Hong Kong)

Mr Maurice Rabb, Founder, LegalTechJapan.com (live from Tokyo)

Mr Rajesh Sreenivasen, Head of TMT Practice, Rajah & Tann LLP

This panel will discuss the State of Legal Innovation in the Asia Pacific (SOLIA) and dive into the key findings of the 2019 SOLIA report (with four new countries and four law firm case studies added to the inaugural edition launched at Stanford's CodeX in April). Developments and trends in legal education, regulatory frameworks, business models, technologies and dispute resolution will be discussed from the lens of innovation. Panellists will share their views on the opportunities across the various APAC markets for law firms and startups seeking to enter or expand their legal tech businesses.

1600 - 1630

Teabreak (*for Conference delegates only*)

1630 - 1800

**[Track 1] Innovation Journey Case Studies for Law Firms**

*Moderator:*

Mr Pontus Siren, Partner, Innosight

*Panel:*

Mr Bas Boris Visser, Global Head of Innovation and Business Change - Partner, Clifford Chance

Ms Komal Gupta, Head of Innovation and Artificial Intelligence, Cyril Amarchand Mangaldas

Ms Rocio Perez, Innovation & KM Solutions Manager, Dentons Rodyk

Ms Kimberley Davies, Head of Discovery, Luminance

Mr Tae Royle, Head of Legal Technology, Ashurst

Law firms and legal businesses are evolving in response to technology and business model disruptions. But while 'innovation' and 'disruption' are buzzwords used frequently, they provide little indication of what to do and how to do it. This session will feature case studies of law firms and legal businesses which are adopting, adapting and even creating technologies, and the ups and downs of their innovation journeys.

### **DAY 1: 5 September 2019**

*Programme is subject to change without notice and is accurate at the time of printing.*

1630 - 1800

#### **[Track 2] Firehose Seminar: Comparative Regulatory Approaches**

*Moderator:*

A/P Chen Siyuan, SMU School of Law

*Panel:*

**Mr Damian Pang**, Deputy Chief Fintech Officer, MAS

**Mr Jeremy Lim**, Partner (Health & Life Sciences), Oliver Wyman

**Mr Choo Wei Pin**, Chief Legal Officer, Razer

How are various industries responding to the opportunities and challenges of technological adaptation and disruption? This session discusses how different industries and different jurisdictions are adopting a variety of stances and approaches towards technology adoption and innovation. What are the implications of these for the legal industry and what lessons can we learn from them?

## DAY 2: 6 September 2019

Programme is subject to change without notice and is accurate at the time of printing.

0900 - 0930

### **Thematic Lecture: Security and Connectivity**

Mr William Deckelman

Executive VP, General Counsel and Secretary, DXC Technology

0930 - 1045

### **Panel Discussion 3: Data and Security**

*Moderator:*

Dr Stanley Lai SC, Partner and Head of IP Practice, Allen & Gledhill LLP

*Panel:*

BG(Res) Rami Efrati, Founder and President, Firmitas Cyber Solutions

Mr Vivek Chudgar, Senior Director, Mandiant Consulting, FireEye

Mr Lee Fook Sun, Chairman, Ensign InfoSecurity

Ms Aileen Chia, Deputy Chief Executive and Director-General (Telecoms and Post), IMDA

Ms Lijun Chui, Counsel, Clifford Chance

In recent times, the advent of 5G and its potential promises an even more interconnected Internet of Things. Even without it, Internet of Things devices increasingly proliferate the market. While 5G technology and IOT devices may have its benefits, they also raise serious questions around the security of the ubiquity of interconnectivity and the susceptibility of 5G technology, along with edge computing, to cyberattacks. Data protection and security are critical concerns. Would it be possible to have security by design and incorporate cyber defences? And in this increasingly interconnected world, what can be done to better protect data, and by whom? For instance, how are 5G technology service providers going to be regulated?

1045 - 1115

Teabreak (*for Conference delegates only*)

1115 - 1230

### **Panel Discussion 4: Data and Connectivity**

*Moderator:*

Mr Huey Tan, Senior Legal Counsel, Apple Asia

*Panel:*

Ms Tenzin Dolma Norbhu, Head, Connectivity and Access Policy, APAC, Facebook

Mr Ying Shaowei, Chief Operating Officer, DataSpark Pte Ltd

Mr Adam Burden, Chief Software Engineer, Accenture

Mr Ben Allgrove, Partner and Head of AI Practice, Baker McKenzie

Dr Zhao Ranran, Legal Director, Tencent

## DAY 2: 6 September 2019

Programme is subject to change without notice and is accurate at the time of printing.

1115 - 1230

This year, humanity will have surfed the World Wide Web for 30 years. Platforms, mobile technologies and cloud services are converging to make the internet more accessible to anyone, anywhere and anytime. The net effect of data has outweighed how data affects individuals. Recent concerns about controlling access to content or services leading to data misuse and distrust are not new. What is the impact of these divergences on consumers, governments and businesses? What can law and policy makers do to support fair and transparent data uses while managing risks or harms? What future legal challenges do we face? How can new technologies advocating for greater access to human data address these challenges? How can users be personally empowered through data? Who speaks for humanity?

1230 - 1330

**Closing Keynote**  
(to be confirmed)

1330 - 1430

Lunch (for Conference delegates only)

1430 - 1600

**[Track 1] Deep Dive Seminar: Deconstructing Smart Contracts On and Off Distributed Ledgers**

*Moderator:*

Ms Joyce Tan, Managing Partner, Joyce A. Tan & Partners

*Panel:*

Ms Claudia Marcusson, Executive Education Fellow, NUS School of Computing

Mr Paven Sharma, Managing Legal Engineer, Pinsent Masons

Mr Sri Balan Krishnan, Associate Legal Counsel, Pundi X

Ms Alexis Chun, Co-founder, Legalese

Ms Tara L Waters, Partner and Co-CEO, Ashurst Digital Ventures, Ashurst LLP

In the borderless world of international contracting manifested on technological platforms such as distributed ledgers (DLT) and blockchains, is the law equipped to navigate contractual relationships arising from these platforms within and across national boundaries? This session takes us into the deep matrix of a smart contract - where it crosses the line to become a smart legal contract, its interface with natural language contracting, its possible models and their respective legal ramifications, its variations as enabled by (existing and future) technology, its regulatory governance and the challenges it poses to its author and its enforcer.

1430 - 1600

**[Track 2] Firehose Seminar: The Legal Issues Facing a Smart Nation**

*Moderator:*

**Mr Yeong Zee Kin**, Deputy Commissioner, Personal Data Protection Commission

*Panel:*

**Mr Tan Kok Yam**, Deputy Secretary (Smart Nation and Digital Government), Prime Minister's Office

**Mr Adrian Kwong**, Managing Director, Consigclear LLC

**Ms Jo Yeo**, Deputy Director (Fintech & Innovation Group), MAS

**Mr Steve Tan**, Deputy Head of TMT, Rajah & Tann

**Mr Ivan Koh**, Deputy Director (Technology Governance Office), IMDA

Singapore has embarked on an ambitious multi-year Smart Nation initiative. How exactly do the Strategic National Projects come together to help fulfil the Smart Nation vision and what are the legal issues that these projects may raise? How might the work of lawyers change as the Smart Nation initiatives are realised? What might we be able to learn from private sector leaders in digitalisation? What are the opportunities for providers of legal technology and legal services? And what are the adaptations needed by the legal industry to play an active role in the Smart Nation vision?

1600 - 1630

Teabreak (*for Conference delegates only*)

1630 - 1800

**[Track 1] Innovation Journey Dialogue for In-house Legal Departments**

*Moderator:*

**Mr Mark Cohen**, CEO & Founder, Legal Mosaic

*Panel:*

**Mr William Deckelman**, Executive VP, General Counsel & Secretary, DXC Technology

**Mr Dirk Hartung**, Executive Director of Legal Technology, Bucerius Law School

**Mr Lam Chee Kin**, Managing Director and Head, Group Legal, Compliance & Secretariat, DBS

**Mr Titus Rahiri**, Founder, KorumLegal

This dialogue is for general counsel looking to re-design their legal departments to make the digital transformation journey. What technologies are available? How do these impact business processes? And what kinds of new capabilities need to be developed to support the effective implementation of changes. General counsel from a range of industries share their ongoing efforts at reviewing and restructuring their legal departments in this candid dialogue about what works and what doesn't.

### DAY 2: 6 September 2019

*Programme is subject to change without notice and is accurate at the time of printing.*

1630 - 1800

#### **[Track 2] Firehose Seminar: Frontier Issues in Law and Technology**

*Moderator:*

**Mr Tan Ken Hwee**, Chief Transformation & Innovation Officer, Supreme Court of Singapore

*Panel:*

**A/P Daniel Seng**, NUS Faculty of Law

**Mr Gilbert Leong**, Senior Partner, Dentons Rodyk

**Mr Wong Meng Weng**, Co-founder, Legalese

**Mr Sanjay Shah**, Managing Director, Asia, iManage

**Ms Gaythri Raman**, Managing Director, LexisNexis Southeast Asia

Much ink has already been spilt on some areas of law and technology like blockchain and cryptocurrencies, AI and autonomous vehicles etc. What other even more cutting-edge areas should we be thinking about? Might contracts be drafted and enforced entirely by computers and AI? How do we ensure that the Internet of Things does not bring malware into our home or office networks? Is there a new age of surveillance that we should be concerned about?
